

EPOXY PRO

INSTANT CLEANER FOR FRESH EPOXY PUTTY

- POLISHED PORCELAIN TILES
- GLAZED CERAMIC TILES
- GLASS MOSAICS
- POLISHED QUARRY TILES

WHAT IT'S FOR

- Removes both fresh and hardened epoxy putty residues.
- Ideal for cleaning putty application tools after use.

ADVANTAGES

- **RAPID DRY TECHNOLOGY:** fast-acting, to be used at the same time as laying.
- Gel-like consistency, ideal for cleaning walls and vertical surfaces.
- Does not affect tiles or grout.
- Safe for the user and for the environment.
- High coverage.
- Does not ruin profiles in aluminium and steel.
- Does not foam.
- For indoor and outdoor use, on walls and floors.

HOW TO USE IT

No dilution required: ready to use.

Removal of fresh epoxy residues: Spray **EPOXY PRO** evenly across the surface. Leave to act for several minutes (2-3 minutes max.).

Clean the surface using a white Scotch-Brite® pad, without applying excessive pressure. Rinse thoroughly.

When cleaning several hours after the putty was applied, leave the cleaning product to act for approximately 20 minutes.

For curing times, refer to the instructions provided by the putty manufacturer.

COVERAGE

indicative of 750ml bottle

Large format tiles	up to 350 linear metres
Mosaic	Up to 15 m ²

The coverage is indicative and refers to a single coat.

CAUTION:

Always test on a small area of the surface to check the material's resistance and find out optimum waiting times for best results. Do not use on absorbent materials. Do not use on wood. Do not use on methacrylate surfaces. Check the resistance of metal surfaces to the product before use.

Packaging

750ml bottle with spray nozzle in boxes of 12.

WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.

TEMPERATURES

Storage temperature: from 5° to 30° C
The product should be applied to materials with temperature between 5° and 30° C.

CONTAINS

Less than 5% anionic surfactants.

LABELLING

No safety and risk labelling or instructions are required, as the product is not classified as hazardous under current regulations.

Safety data sheet available on request.

TECHNICAL FEATURES

Appearance: liquid
Colour: yellowish
Odour: characteristic
Density: 1.01 kg/l
pH: 10,5

This information is the result of our most up-to-date technical know-how and is based on ongoing laboratory research and testing.
